An effective method for figuring out a price is to ship out a survey to your present customers. If these prospects have already purchased an e book from you, ask for their opinion when it comes to price. Do that by making a gross sales page for the new book, but don't embody a value on that page. As an alternative, add plenty of hyperlinks to survey questions that ask pointed questions to aid you in assigning a price to your ebook.

Another strategy is to test out costs by creating a variety of duplicate sales pages with different costs on every page. Make sure that your sales copy is precisely the similar on every web page, and

contains your promoting-handle sentence. Then work out for every page the conversion ratio between visitors to your website and gross sales of your book. It will tell you what your optimum worth is.

In the end, should you've written a ebook that solves a downside or presents a new technique, your book will bring in both site visitors and profits.
