An effective technique for determining a value is to send out a survey to your current customers. If these customers have already purchased an book from you, ask for their opinion in terms of price. Do that by creating a gross sales page for the new e-book, but don't include a value on that page. As an alternative, add quite a lot of links to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

Another technique is to test out costs by making a variety of duplicate gross sales pages with different prices on every page. Be certain that your sales copy is strictly the similar on each page, and contains your selling-handle sentence. Then determine for every page the conversion ratio between guests to your site and gross sales of your book. This may tell you what your optimum worth is.

In the end, for those who've written a e-book that solves a problem or presents a brand new technique, your guide will usher in each traffic and profits.
