In addition to promoting your books assiduously on-line, there are a number of different methods that may show you how to sell more books.

One is to give one thing away free of charge with your ebook, comparable to a beneficial bonus item. Or bundle a number of ebooks below one value, which lowers the value for every e book if they were offered separately.

An effective approach for determining a price is to ship out a survey to your present customers. If these prospects have already purchased an book from you, ask for his or her opinion when it comes to price. Do that by making a sales page for the brand new book, but do not include a value on that page. As a substitute, add numerous links to survey questions that ask pointed questions to help you in assigning a value to your ebook.

One other strategy is to test out costs by creating a number of duplicate sales pages with completely different prices on every page. Be sure that your sales copy is precisely the identical

on each page, and includes your promoting-handle sentence. Then determine for every web page the conversion ratio between visitors to your site and sales of your book. This can inform you what your optimum value is.

In the end, if you've written a e-book that solves a problem or presents a brand new method, your e book will usher in both site visitors and profits. So you'll want to write that promoting-handle sentence that sums up what downside your guide solves and what the advantages of your 837 e-book might be to the customers who buy it.
